

Pioneering Drain Line Purity

# JOB SPOTLIGHT

**Job Name:** Wendy's Restaurant Miami Florida

**Date Installed:** March 2008

**Product/Capacity:** 1-GB-250 Grease Interceptors (1,250 gallon concrete equivalent)

**Installing Contractor:** Wolfe and Bob's Plumbing, Broward County, FL

**Local Jurisdiction:** Miami Dade County

**Details:** Wendy's Restaurants has an ongoing challenge posed by having hundreds of failed or failing interceptors throughout south Florida. Wendy's has begun using Schier's Great Basin Series as a permanent solution to their problems. After pumping and cleaning the existing failed concrete interceptor, a hole is punched through the bottom and the Schier unit is installed inside the old concrete unit. This allows for one night replacement and repaving. This is important for Wendy's as most of their interceptors are in the drive-thru lane.
